

Standard and Non-Standard Business

Brokers are turning to Managing General Agents not only for "hard to place" risks, but increasingly for mainstream standard and non-standard business. O2 Insurance Services Inc., works with retail insurance Brokers to cooperatively design products and services that compliment their needs. Without the need of a London intermediary, we can provide a faster turnaround time linked with competitive pricing that will ultimately enable our Brokers to write more business and provide enhanced services to their clients.

PRODUCTS & SERVICES

To address the rapidly changing insurance needs of society today, O2 Insurance Services Inc. is committed to developing specialty products, programs and solutions that will give our Brokers a competitive edge.

HOW WE'RE DIFFERENT

As an independently owned, fully accredited Lloyd's Broker, O2 Insurance Services offers more than a typical MGA. Using a combination of domestic and Lloyd's capacity, we work with our retail Brokers to cooperatively design insurance products and services that compliment your needs. We achieve this by providing:

- Direct Access to the Lloyd's Marketplace
- Broker Partnerships
- Specialty Product Lines
- On-Line Digital Distribution Strategies
- Value added service level agreements

We are committed to providing insurance products, programs, and solutions, that will contribute to your success by providing you with a competitive edge that will allow you to reach more clients and increase your revenues.

ENLIGHTENED RESULTS
